

REMARKS/ARGUMENTS

Claims 6 and 13 are withdrawn by this response. No claims are canceled or amended. Accordingly, claims 1-4, 8-10, 12, and 14 remain pending.

In the latest Office communication, the Examiner requested identification of species directed to one of the following species of the claimed invention:

- (1) movement of a dielectric mass parallel to the electrode plane (see fig. 11); or
- (2) movement of the seismic mass normal to the electrode plane (see fig. 10a).

In response, Applicants hereby identify the following claims as being directed to species (1) - movement of a dielectric mass parallel to the electrode plane: claims 1-4, 8-10, 12, and 14. Claims 6 and 13 are accordingly withdrawn pending allowance of a generic claim.

In view of the foregoing, Applicants believe all claims now pending in this Application are in condition for allowance. The issuance of a formal Notice of Allowance at an early date is respectfully requested. If the Examiner believes a telephone conference would expedite prosecution of this application, please telephone the undersigned at 650-326-2400.

Respectfully submitted,

Kent J. Tobin
